# Technical Specifications

## **Energig A1**

**Powered by Folomov**

Magnetic USB Charger

## Main Features

A compact and simple charger and a power bank in one device. Using magnetic holders this charger can hold and charge a rechargeable battery or a li-ion battery-cell (the correct polarity is clearly marked).

With a USB plug, the charger can be easily connected to any power source through a power adapter, laptop, USB-output in the car etc. (green light is on). It can also be used as a power bank to charge other mobile devices (blue light is on).

With a charging current of up to 1A this tiny magnet-charger can be used almost everywhere.

## Technical Specifications

- Input: DC 5V up to 1A
- Output: DC 5V up to 1A
- Weight: approx. 21 g
- Dimensions: approx. 185 x 35 x 9 mm

## LED-Lighting

- **Green blinking:** a rechargeable battery is being charged
- **Green permanent:** battery is fully charged, or no battery is connected
- **Blue blinking:** the USB-output supplies power = power bank function

## Compatibility

Compatible with li-ion battery cells with a diameter of 14 - 32 mm.

Not recommended for batteries with a capacity of less than 1000 mAh.
